

JOHN HAWKINS HISTORY (in portions)

THE JOHN HAWKINS HISTORY IS THE HISTORY OF THE ENSLAVEMENT OF THE SEED OF ABRAHAM, FROM THE HOLY TRIBE OF SHABAZZ IN 1555.

Under the ruler of England, all of the leaders and scholars had come together to map-out the drawing up of the 100-year plan. Sir John Hawkins, a much traveled seaman and trader was among those present.

The problem at hand was the building up of the wilderness of North America. At this time all of Europe was over-populated and being the poorest part of our planet, this continent could not provide for the greedy nature of the white-devils therefore, they were allowed (by Allah) to expand by the discovery (locating of America, by Columbus in 1492). The problem now was to make America productive in order to send the wealth back to Europe.

The blue-eyed devil tried first to enslave the Original members of the Black nation that were over here (Indians or Redman) but the Red man was rebellious and would not submit to being enslaved. This lead to war between the two nations, (Red and white).

The devils with their savage ways were able to kill of the Red nation. Out of the many millions of Indians in this country, the devils spared only a few. These were placed on reservations in certain areas of the United States and forced by this wicked government to live in miserable conditions and poverty.

The few remainders of our poor destroyed Red brothers stand as a mockery conquering to the Black nation and reminders to the white people of today of the great conquering power their forefathers (white devils).

The Red man on this continent are our brothers from the east. They strayed away from civilization about 16,000 years ago and were living in a sort of exile on this part of the planet earth (now called America and supposedly named after a devil, a devil named America Vespucci, 1451-1512; he was an adventurer and explorer.

Since the Indians would not submit to slavery, it was asked at the meeting if anyone know of a people who could be brought to America, and who would submit. Sir John Hawkins said yes, there is such a people, they are the greatest nation on the planet earth; the strongest, the wisest and most submissive, but they have never been told a lie; they are the people now living in the rich Nile Valley of Egypt.

Having lived and traded with the Original nation, Sir John Hawkins was given the job of kidnapping Allah's most righteous tribe, stripping them of their knowledge and delivering them to a shameful yoke, he did his job.

Sir John Hawkins sailed to the Egyptian coast in the "Good Ship Jesus", and flying a red flag (it stands for freedom). As he had the wisdom, knowledge, and understanding which enabled him to act like Original people (Muslims) and not act like the shameless self (evil and wicked). He was, therefore allowed to live among the Holy Tribe of Shabazz (us) who were righteous Muslims at that time. We (now are called Negroes) taken from the Latin "Negro" and Greek "Nekros", which means something dead or dead body were at
