

INFUSION

THE WORLD OF CONFUSION is breaking up with all kinds of disagreement between factors and factors.

Take for instance — never has America had so many strikes. Everyone is against the other. If this is not a CONFUSED WORLD, then point out to me one that is more confused.

IN the government of America, there is nothing that is at peace in it. There

is no agreement. Everybody is dissatisfied.

Everybody is showing their dissatisfaction by disregarding the way that they have been going. Worker is against worker; politician is against politician. — A CONFUSED WORLD, AMERICA.
