

# ASUNDER

THE MOON is a beautiful symbol of the rise to power and the stages through which that power has to go before it attains perfection.

THE MOON is first seen in the western skies as a very small rim of her surface with the sun shining on it. As the moon moves around the shadow of the earth, she grows in quarters: 1st, 2nd and 3rd, and from that to a full moon. When she is full, she rises from the East, but in her stages of growth to a full moon, she is seen in the West until she makes her way to the East; then we see her like a full moon in the East.

THIS shows the power of the Resurrected Dead. The beginning

of the rise and Resurrection of the Lost - Found so-called Negro ...Lost and now Found Members of that Great Nation, the Aboriginal Black Nation...must begin in the West, and as they grow in wisdom, knowledge and understanding and become full of wisdom and full of power, then they take their place in the East, as a people equal with power to command the way of the government of the people, as the sun commands the way due to the power of its light! THE NATION IS BURSTING ASUNDER!
